danielkrbrahma@gmail.com ◊ [LinkedIn](#)

OBJECTIVE

I am a freshly graduated Computer Science Engineer with a robust foundation in programming, software development, and technical problem-solving. With comprehensive knowledge in full stack development and practical experience in cutting-edge technologies, I am seeking a for a role of Full Stack Developer where I can contribute to the company.

EDUCATION

B.Tech in CSE, Central Institute of Technology Kokrajhar

2024

SKILLS

Technical Skills	Python, C, C++, C#, Data Structures, Algorithms, HTML, CSS, JavaScript, MongoDB, MySQL, ExpressJS, ReactJS, NodeJS, Google CCloud, AWS, Troubleshooting,
Soft Skills	Project Leadership, Communication, Problem-Solving, Teamwork, Time Management

WORK EXPERIENCE

Intern

June 2023 - July 2023

Indian Insitute of Technology

Guwahati

- Developed a user-friendly front-end interface for an avateering application using ReactJS, HTML5, CSS and JS
- Integrated the application with the Microsoft Kinect to get Real-Time data

Intern

June 2023 - July 2023

Indira Gandhi Delhi Technical University for Women

Delhi

- Engineered an application with the capability to generate a three-dimensional model from scanned imagery, leveraging the Unity 3D platform.

PROJECTS

Netflix Clone :

Role: Front-end Developer

Description: Developed a functional Netflix clone website utilising HTML5, CSS5 and JS.

Approach to Render Web Page Based on Network Speed :

Role: Chrome Extension Developer

Description: Developed a Google Chrome extension using JavaScript to dynamically detect users' network speeds and optimize web page content, improving load times and user experience.

Lung Cancer Risk and Type Prediction :

Role: ML Engineer

Description: Engineered a machine learning model using Python to predict the risk and type of lung cancer, incorporating advanced data preprocessing and feature engineering techniques.

CERTIFICATIONS

- Technical Support Fundamentals from Google through Coursera.
- The Bits and Bytes of Computer Networking from Google through Coursera
- AWS Cloud Technical Essentials from AWS through Coursera
- Foundation of Project Management from Google through Coursera
- Project Planning: Putting it all together from Google through Coursera
